

tp catalyst

document manager

For efficient, fast and
cost-effective TP reporting

BUREAU VAN DIJK

bvinfo.com

Challenged by transfer pricing in a post BEPS world? Fazed by the additional reporting burden?

We can help you with that...

We're ideally placed to help you with the documentation challenges posed by BEPS and country-by-country (CbC) reporting.

Our new Document Manager is a workflow tool that delivers efficient, cost effective creation of consistent and transparent TP reports. It will completely streamline your document preparation, management and compliance, and save you a huge amount of time.

Upload your functional analyses, legal structure and benchmarks then pick your countries to instantly create your choice of documents including your:

- Master File
- Local Files
- CbC reports

Local legislation – built-in

The Document Manager incorporates local TP legislation summaries from IBFD to simplify the preparation of your local documentation.

Use your own financials or ours

If your internal financial data is patchy, or inaccessible, you can choose to use ours. We'll already have standardised financial data for a high proportion of your local operations in our Orbis database. So it's simple to fulfil your CbC reports directly from our resource.

Tailored to you

We can map data from your internal datasets directly into our reporting software for further automation. Plus we can create bespoke data sets that are directly linked to your accounting systems and automatically produce transfer pricing calculations and reports.

A full solution

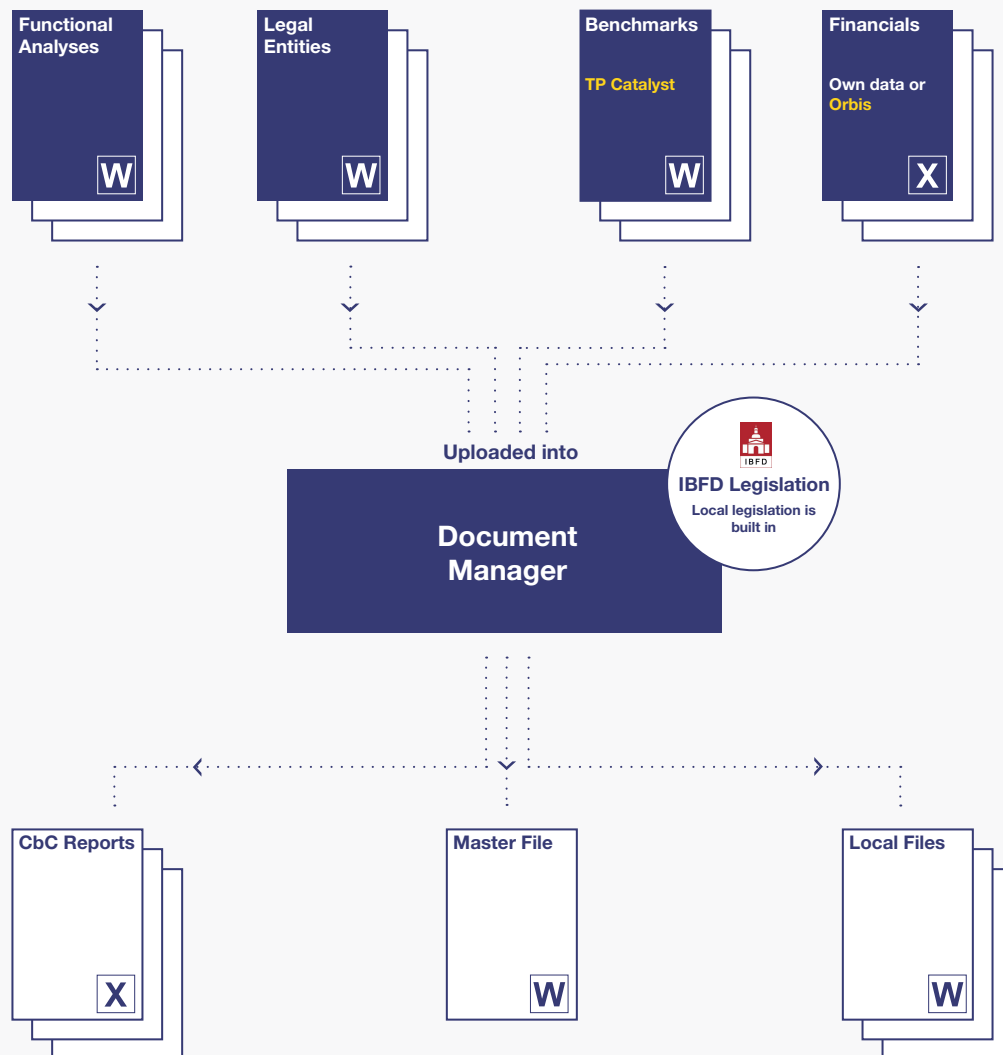

Our solution is a full document management system. You create document templates, upload them into the module, with your own free text input, and your reports are assembled for you. The right data points are pulled into the right place, based on your functional analysis. The system is simple to set up and it's quick to get started. We can also introduce customisation by our expert team as you require.

Use our Document Manager to:

- Streamline your CbC reporting
- Create a Master File and Local File documents
- Monitor global operations against arm's length benchmarks
- Store, centralise and archive your documents
- Automate the day-to-day transfer pricing management process
- React quickly to document creation needs as they occur
- Control documentation costs
- Save time

How does the Document Manager work?

The data behind the reports

Quite simply we have the best company data for transfer pricing. With a total universe of 170 million companies, and detailed financials for 19 million, you won't find a more comprehensive or robust source.

We also provide detailed corporate ownership structures that help you identify entities that are independent.

TP Catalyst's Document Manager is available combined with our powerful benchmarking platform or as a standalone document creation solution.
